PROFILE SUMMARY

Product designer with experience delivering end-to-end digital products across mobile and web. Proven track record of designing scalable systems, shipping multiple products, and improving user experience across platforms. Experienced in collaborating with cross-functional teams and driving product impact from concept to launch.

PROFESSIONAL EXPERIENCE

Algol Solutions—Manhattan, New York (Remote)

Contract Product Designer (Principal Product Designer) | February 2026 – Present

- Led the design of the company's primary website, improving brand visibility and digital presence.
- Designed and launched 2 additional websites, aligning business goals with modern UX practices.
- Collaborated with stakeholders to define product direction and deliver scalable design solutions.

Ashipa Electric Limited—Abuja, Nigeria (Remote)

Product Designer | July 2023 – Present

- Designed and delivered 3 mobile applications and 2 websites, improving accessibility and user engagement.
- Built a centralized backend console to manage products, enhancing internal operations and scalability.
- Established consistent design systems across platforms, improving usability and visual coherence.
- Partnered closely with engineering teams to deliver high-quality, production-ready designs.

Karisimbi Tech Solutions—Kigali, Rwanda (Remote)

Product Designer | June 2023 – July 2024

- Designed an Electronic Medical Record (EMR) MVP from concept to launch, adopted by 3+ clinics.
- Created a pitch deck that contributed to the company securing 3rd place in a competition, increasing investor interest.
- Implemented and maintained design systems, improving consistency and efficiency across products.
- Delivered wireframes, prototypes, and polished UI aligned with user and stakeholder needs.
